Career Objective:

I'm a Web Developer with professional internship experience at Blackly, building and maintaining production-ready web applications with modern JavaScript. I'm seeking a role where I can contribute to real-world products by solving practical problems.

Skills:

Languages : JavaScript, TypeScript
Frontend : React, Next.js, Redux, React Router, Tanstack, Tailwind CSS, Shadcn
Backend : Node.js, Express.js, Rest APIs, Firebase, JWT, Passport.js, Stripe, Zod
Databases : PostgreSQL, MongoDB, Prisma, Mongoose
Soft Skills : Quick learner, Adaptability, Problem-Solving, Teamwork, Collaboration

Projects:

Lorvic - Multi Vendor E-Commerce:

[Live](#) [Client-site](#) [Server-site](#)

A multi-vendor e-commerce platform built to manage shared operations, control access and prevent workflow conflicts, with clear ownership and reliable data handling across the system.

- Designed an RBAC-driven architecture enforcing clear permission boundaries across multiple roles
- Built a vendor-centric product, order lifecycle ensuring clear ownership and inventory consistency
- Implemented transaction-safe checkout flows to ensure payment accuracy and order integrity

Tech Stack: Next.js, Node.js, Express, MongoDB, Mongoose, JWT, Passport.js, Stripe, Cloudinary, Shadcn

Velocia - Ride Sharing Platform:

[Live](#) [Client-site](#) [Server-site](#)

A ride-sharing platform built to handle real-time ride operations and coordinated user interactions, designed to maintain consistent ride state, user actions, and dependable system behavior during active.

- Designed role-specific workflow orchestration to coordinate user actions with real-time oversight
- Built a state-driven ride lifecycle system managing ride creation through completion predictably
- Implemented real-time state synchronization keeping ride status and user actions aligned

Tech Stack: React, Redux, Node.js, Express, Mongoose, Redis, JWT, Passport.js, Nodemailer, Shadcn

Education:

Completed Dawra-e-Hadith (Master's Degree in Islamic Studies) From Jamia Islamia Dhaka in 2024

Experience:

Frontend Developer Intern at Blackly (April 2025 - July 2025)

Courses:

- Complete Web Development by Programming Hero (June 2024 - Feb 2025)
- Next Level Web Development by Programming Hero (April 2025 - Jan 2026)

Languages:

- English: Proficient (Written and Spoken)
- Bangla: (Native)
